João Pessoa, Paraíba, Brasil

Resumo

Welcome to my portuguese profile. If you want, you can go to my English profile and check that out.

Hi, my name is Mickael Yoshua. I've been loving work with Data Analysis / Engineering since I started my Internship at Paraíba's Court of Auditors and have been studying and practicing the field since then.

I also love dance (is like breathing to me), working out, outdoor activities.

I'm searching for new opportunities to grow and contribute in my professional area of Data and hope you'll consider me to a job so we can work together.

Portifólio: <https://github.com/mickaelyoshua7674>

Experiência

Tribunal de Contas do Estado da Paraíba - TCE-PB

Analista de dados

junho de 2022 - Present (1 ano 10 meses)

João Pessoa, Paraíba, Brasil

- * Build and Manage Relational Database;
- * Build dashboards for data analysis and for Auditors to consult; Extract, Transform and Load data (ETL) to feed dashboards and analysis reports;
- * Web Scraping scripts.

Contribute to analysis of public invoices (medicine and hospital material) by making SQL and QlikView scripts to feed a dashboard. Automate the extraction of data from DATASUS, from that transform and load the data into a Relational DataBase and a QlikView Dashboard.

Engeselt

Projetos de Distribuição Elétrica

setembro de 2020 - junho de 2022 (1 ano 10 meses)

João Pessoa, Paraíba, Brasil

Serviço de desenho e orçamento de projetos de distribuição elétrica para a Energisa-MS.
