

MICKAEL REIS

João Pessoa - PB, Brazil • mickaelyoshua@gmail.com • [LinkedIn](#) • [Instagram](#) • [GitHub](#)

Data Analysis • Data Science • Data Engineering • Business Intelligence

Hi, my name is Mickael Yoshua Cardoso Reis. I've been loving work with data science since I started my Internship at Court of Auditors of Paraíba and have been studying the field and practicing since then.

I also love dance (is like breathing to me), working out, outdoor activities, and the geek/pop culture.

I'm searching for new opportunities to grow and contribute in my professional area about Data Science and hope you'll consider me to a job so we can work together.

PROFESSIONAL EXPERIENCE

Intern in Data Analysis - Jun 2022 to Present

Internship at Court of Auditors of Paraíba, located in João Pessoa - PB.

- Build Relational Database;
- Build dashboards for data analysis and for Auditors to consult;
- Extract, Transform and Load data (ETL) to feed dashboards and analysis reports;
- Build Database;
- Web Scraping scripts;
- Test Recurrent Neural Networks (RNN).

Contribute to analysis of public invoices (medicine and hospital material) by making SQL and QlikView scripts to feed a dashboard. Automate the extraction of data from DATASUS, from that transform and load the data into a Relational DataBase and a QlikView Dashboard.

Made a bot to collect data from instagram posts of public accounts in order to make a Natural Language Processing (NLP) of comments classifying the sentiments on posts and analyse the metrics.

Test Recurrent Neural Networks (RNN) to analyse description of public invoices and classify if it is about medicine or not.

Intern in Electrical Distribution Projects Design - Sep 2020 to Jun 2022

Internship at Engeselt, located in João Pessoa - PB. Service of design and budget of electrical distribution projects for Energisa-MS.

EDUCATION

- Completed Technician in Mechanics and High School at IFPB - Campus João Pessoa (2014-2017);
- Incomplete Bachelor in Electrical Engineering at IFPB - Campus João Pessoa (2018-).

PROJECTS

QlikView Dashboard of State Medicine Invoices

From a database of public invoices at Court of Auditors of Paraíba, the data is extracted, filtered and organized through SQL scripts to feed a QlikView Dashboard. The goal is monitor the Paraíba's spendings and transactions of medicines and hospital supplies as well as companies.

QlikView Dashboard of Health Establishments

Extract, transform and Load data from the ftp server of DATASUS about health establishments into a Database. From that Database, feed a QlikView Dashboard with the goal of analyse the production of health establishments and data of health professionals, an alternative way of tracking their contracts and links with establishments.

Instagram Bot

A Instagram robot using `selenium webdriver` to collect data from user posts (number of likes, publication date, text of comments, text of description, link of publication). The goal is collect the data to make a sentiment analyses about the interaction with every post.

Automated Extraction DATASUS in AWS

Extract, organize and store data from the ftp server of DATASUS about health establishments into S3 Bucket using AWS Glue.

Creation of dataset of medicine invoices

From a database of public invoices at Court of Auditors of Paraíba, the data is extracted, filtered and organized through SQL scripts to build a dataset with the labels `medicine productos / hospital material / others`.

Comparing different RNNs

Using a dataset of public invoices description with labels `fuel / medicine / nan`, train different types of Recurrent Neural Networks (LSTM / GRU / Bidirectional / SimpleRNN) to see which one have the best results.

SKILLS

- Data Analysis / Business Intelligence: QlikView, Tableau, Statistics, Probability, Relational Database;
- Data Science: Pandas, Numpy, Scikit-Learn, Tensorflow, Machine Learning, NLP;
- Data Engineering: Amazon Web Service (AWS), Pyspark, Database, Docker;
- Others: Git, Python, SQL, Django, Web Scraping.

Certificates
